

Modification of Tube, 4

These inserts are bolt patterns for the main feet of the altitude drive sector, (Part Group 9). There are 6 holes tapped for 3/8-16 on each outer attachment and 6 holes tapped for 3/8-16 on each inner attachment. Positional tolerance is ±0.002 with respect to both datum B and G.

Outer Attachment Point

Inner Attachment Point

Hatched areas represent sizes of the 6 locations for attaching the altitude drive sector. See drawing AST-05-R11 for fitness required.

See AST-09-P05 for details of this part

Note: Datum B is given on drawing AST-05-R11.
